The MasterFan Pro 140 Air Pressure RGB provides a specific air cooling solution ideally for CPU coolers and chassis in-take fans. Designed for Builders with RGB-enabled PCs, you can feel the flow with full color fun, and perfect match your PC's theme. The MasterFan Pro series is fitted with multiple layers of our exclusive noise reduction technologies and a perfect blend of fan blade design that put together work in harmony to cool your entire case and its components in silence.

Features

Custom Colors – Bring your rig to life with three color modes. Use red or blue lighting with a simple switch or choose from the entire RGB color spectrum with the optional CoolerMaster RGB fan controller (sold separately).

Silent Cooling – Exclusive noise reduction technology coupled with noise absorbing rubber reduces rattling, clicks, and vibration sounds. Get the cooling you need without the noise you don't.

HELI-INSPIRED - Fan blade design inspired by helicopters. They move the air less distance but pack more force into the space in front of the fan.

Jam Protection – Smart fan sensor technology automatically stops fan motor if jammed by foreign objects.
