

MasterLiquid Maker 92

Liquid cooling is now swiveling its way into cases and onto motherboards of all sizes. This all-in-one cooler’s rotating configurations make it both agile and versatile. With its compact, single frame combining the radiator and pump, even the tightest case layouts are accessible. Fit both liquid and dual fans easily and snugly over the CPU, sending liquid and air to the motherboard’s core and its surrounding components.

Don’t let size define the strength of your PC.

Product Features

- **Switch and Swivel**
Choose between vertical and horizontal cooler configurations for space and air flow.
- **Liquid and Air**
A single tower utilizes superior AIO liquid cooling with dual fans for air flow
- **Compact Body**
a merged pump and radiator in one easily installed unit brings liquid cooling to tighter layouts.
- **Silent Efficiency**
MasterFan Pro 92 fans monitor CPU loads and spin only when needed.
- **Quality Standards**
With FEP sleeved tubing and a white LED indicator and logo.
- **Clean Cabling**
Multiple fan cables plug into a cable hub, reducing messy wiring.
