

Superior memory for
Value-conscious users

JetRam[®]

Value Memory Modules

JetRam[®] is Transcend's superior line of industry-standard memory modules for value-conscious consumers. JetRam[®] memory modules are assembled from high quality, high performance DRAM chips from brand-name chip manufacturers. Backed by a Lifetime Warranty, JetRam[®] memory modules let you confidently install the maximum memory capacity supported by your system.

ISO 9001 design and manufacturing certification procedures assure that JetRam[®] exceeds the industry standards for quality. In addition, you can count on global delivery of your JetRam[®] order within 24 hours from our worldwide distribution network. After purchase, technical support is continuously available from Transcend's global support network and comprehensive website. The ultimate in consumer satisfaction is available to all owners of JetRam[®] standard memory modules.

JetRam[®] value memory far exceeds anything in its class. Contact your JetRam[®] sales representative at Transcend today.

Features

- Excellent compatibility and reliability
- Compliant with JEDEC standard specifications
- High quality DRAM chips and components
- 100% tested
- Lifetime Warranty
