MASTERBOX CM694

MCB-CM694-KN5N-S00(STEEL), MCB-CM694-KG5N-S00(TG)

FEATURES

Curved Mesh – The top and front panel are entirely mesh for optimal ventilation, featuring the iconic CM690 curve and Cooler Master’s signature rhombus pattern.

Massive Storage Support – Simultaneous support for 6 x HDDs and 8 x SSDs ensure substantial storage capabilities.

Modular Drive Cages – 3 Drive Cages can be individually added, removed, or repositioned to make room for longer graphics cards and/or top & front radiators.

Rich Connectivity (I/O Panel) – The dust-proof I/O Panel features rubber shields, 2 x USB 3.0 ports, a USB 3.1 (Gen 2) Type-C port, and a 4 pole headset jack. The single 4 pole headset jack features both audio and microphone capabilities simultaneously so separate jacks are not needed.

Extensive Water Cooling Support – The internal layout can be configured specifically for dual 360mm radiators on the top and front panel to guarantee thermal proficiency.

Graphics Card Support Up To 410mm – Generous clearance space is provided to support the latest graphics cards.

*with drive cage removed

Graphics Card Stabilizer – Graphics cards installed within the case are reinforced by an arm, ensuring the safe delivery and transportation of systems.

The MasterBox CM694

The CM690 line is praised for its build versatility and expansive capabilities—the new MasterBox CM694 stays true to its origin while decreasing its footprint by 10% in comparison to the original CM690 III. Using only the latest technology, the fine mesh on the CM694 achieves optimal airflow while also filtering out dust with a single layer.

A modernized I/O Panel features a USB Type-C port, 2x USB 3.0 ports, and a 4-pole headset jack with simultaneous audio and mic capabilities. The MasterBox CM694 houses bleeding-edge hardware, gamer-grade cooling, and has plenty of storage for workstation demands.
