Cooler Master — Make It Yours.

SAVOR THE VIEW

The K500L is proof that your fix for the latest performance and looks does not need to come at a high price.

With a partial mesh front panel, 400mm of graphics card space, support for six 120mm fans, and front and rear water cooling support, there is plenty of room for upgrades.

To keep build configurations clean, take advantage of generous cable routing clearance, full black coating, and a PSU cover.

FEATURES

Efficient Thermal Performance: A partial meshed front panel and ventilation holes on top of the case give your parts fresh air to breathe.

Lighting Effects:
Stand out and be unique through LED strip in front. Your case will never be unremarkable.

Versatile Cooling Options: Support for up to six 120mm fans and front and rear liquid cooling ensure you don't have to compromise on performance.

Graphics Card Support Up To 400mm: Supports the latest, widest cards you can get.

Stay Black, Stay Neat: Let your system stand out with a full black coating and PSU cover.

Cable Management: The PSU cover and 19mm width space behind the mainboard tray gives you plenty of cable management options to keep your build nice and clean.
