### K360 Foldable lightweight headset with microphone for online chats

#### Introduction

Lightweight and durable headset for comfortable wear and use. Two stereo 40 mm drivers for reproducing clear sound with impedance of 32 Ohms.

The headphones feature circumaural or in-ear cups for passive noise reduction function. This enable pure sound to reach the ears without much interference from outside noises. Line-in microphone lets you chat online with your friends or family. Large headband provide comfortable support during use. Earcups are made of durable PU material for prolong wear. The headband is wide and fit most head crowns with side length extension for different head size. The sides also can be bend inwards to allow for small frame storage space. Connects easily to most media devices, and produces perfect sound for your gaming thrills, emotional movies, rhythmic music moves, or relaxing soothing music. Unique daisy-chain function lets you connect another headset or headphone to it while use.

#### Features

- 50 mW of pure sound reproduction
