

Precision and Clicky Satisfaction

The MasterSet MS121 is your first step to grown-man gaming, with two tools to help you elevate your skills.

It includes a durable keyboard outfitted with Mem-mechanical Clicky switches, which abandon the mushiness of membranes for the clicky satisfaction of mechanical keyboards.

It also comes with a equally decked out mouse to last you through your heated skirmishes, with an Pixart optical sensor, adjustable DPI settings on-the-fly and side buttons.

Add in RGB capability for looks and easy multimedia keys for convenience, and you have everything in your arsenal to go on a killing streak.

Features

Keyboard:

- **Mem-mechanical Clicky Switches** - Cooler Master's exclusive switches are durable, feel and sound like mechanical clicky switches. No more mushy keys, just satisfying clicks and clacks with a 50M+ rated lifespan. The switches also feature a 3.8mm travel distance and 1.8mm actuation point.
- Up to 26-keys Anti-Ghosting
- Cooler Master 2017 new imagine floating design with sleek style, elegant and classic look.
- Brilliant **Per-key RGB lighting**.
- Win Lock and Full key lock Function through FN.
- Multimedia Shortcuts through FN.
- Adjustable Repeat Rate (1x, 8x)

Mouse:

- Avago 3050 Optical Sensor for optimized for Gaming with 4 levels of adjustable DPI between 500 to 3500
- Ambidextrous Small Claw Grip design for high action controls
- Durable OMRON 10M micro switches for the best feedback and durability.
- On-the-Fly DPI Switch Button
