

## PRODUCT INFORMATION

Fast Speed

**1** Gbps

Huge Bandwidth

**250** MHz

## 20% Faster Transmission Speed

This network extension cable produced as  
the EIA/TIA-5688 and ISO/IEC118001  
international standards to ensure stable transmission and low signal loss.

## Oxygen-free pure cooper conductor

Enjoy clean and clear transmission

## FTP (foiled twisted pair) Shielded

With foil shielding and tinning plated connector, transfer at faster speed than others.

## Connector protection

Snagless molds to protect the RJ45 tab from damage during installation

## Matte Finish

For exquisite looks and better touch feeling

**0.5m-5m available**

You could choose the appropriate cable length for your personal need.

## More Durable

Nickel-plated connector, environmental PVC jacket,  
more flexible and durable.
